

Statement to the use of „conflict minerals“ according to the „Dodd-Frank Consumer Protection Act“ (WS H.R 4173, §1502)

Kollmar, in January 2018

Dear business partner

In particular the Dodd-Frank Act relates to tin, tantalum, tungsten, columbite, gold and their derivatives.

According to the Dodd-Frank Act specifications weber Sensors itself is not subject to the reporting and disclosure obligations.

We ask for your understanding that we cannot complete any questionnaires or make any entries to customer portals referring to his subject.

For more than 60 years weber Sensors is a well-established company on the world market and well-known particularly in the field of sensor technology. One important maxim of our company's policy is to maintain the high quality standard of our products.

This in fact gets reflected in the selection of our suppliers.

weber Sensors is aware of its social responsibility in particular with respect to the society, environment, security, health and human rights.

Based on present-day knowledge, all the products from weber Sensors do not contain any direct or indirect conflict minerals from mines which are financed and promoted by armed groups of the Democratic Republic of Congo or bordering countries.

Yours sincerely

weber Sensors GmbH
